

HOPE MARGUERITE | 2025

Named after Hope Marguerite Beaumont, a woman with character, elegance and a love for wine. We have produced this Chenin to reflect the pure character of the grape and the individual philosophy of Beaumont Family wines. Our first vintage of the Hope Marguerite was produced in 1996 and at that time there were only two other Chenin Blancs in South Africa produced in this style. Only fruit selected from our two oldest Chenin Blanc vineyards, planted in '74 and '78, are used for this wine. Both these vineyards are registered as single vineyards and the wine is certified as a Heritage Vineyard wine. This is part of the Old Vine Project that aims to preserve heritage vineyards in the Cape.

RATINGS & REVIEWS | Our Flagship white wine has received ten Platter 5 star ratings in the past. Hope is seen as one of the benchmark barrel matured styles of Chenin in the country. The 2024 also received 95 points in Tim Atkin review.

FOOD PAIRING | Matches brilliantly with seafood especially scallops and any beautifully spicy Asian dish.

PACKAGING | 6 x 750 ml and 1.5 L

BARCODE bottle 6009077000191 box 16009077000198

APPELLATION	BOTTLES PRODUCED	CULTIVAR	VINEYARD AGE	YIELD	BALLING AT HARVEST	ALC	TA	RS	pH
Bot River Walker Bay	17600 x 750ml & 230 Magnums	Chenin Blanc	46– 51 yrs	2.5 – 4 tons / ha	21° - 22° Balling	13.19%	6.5 g/L	3.1g/L	3.19

WINE MAKER | Sebastian Beaumont.

VINTAGE CONDITIONS | The 2025 vintage was beautifully healthy. Wet cold winter with heavy rain in July and August allowed the vines to get through the very dry summer season. Clean healthy fruit came into the cellar.

VINIFICATION | Completely naturally or “pied de cuve” fermented with minimum intervention in 400L French oak with 20% new oak in this vintage. No Malo lactic took place.

MATURATION | This wine remained on its gross lees for 11 months in 400l barrels. Final blending and bottling in early 2026.

AGEING POTENTIAL | Fresh, clean and restrained. Will develop beautifully over the next 5 – 10 years in bottle.
